

Communist party of Nepal (Maoist)

Central Committee

Press Statement

The appointment of Deuba as a so-called Prime Minister continuation to Chanda and Thapa stile has not presented the solution before the people of the present crisis but has made more complicated. There is no doubt that this so-called appointment has been done in the signal and conspiracy of the international imperialist powers against the wishes of the Nepalese people for the democracy and peacefulness. This staged drama on the backdrop that the country wants a comprehensive political outlet and our party has already presented the proposal of the dialogue of all quarters, has done nothing than further intensifying civil war. Hence, our Party humbly urges to all pro-people political forces, civil societies and the masses of people to advance their struggle forcefully against this drama of the regressive feudal state.
