Stand with the CPI (Maoist) Combat the Neo-Revisionism of the Sonu-Satish Clique

Recently, we have all witnessed the draconian smile of the great traitor Sonu, alias Bhupati, an expelled Politburo and Central Committee member of the CPI (Maoist). He has finally laid down the arms obtained through the blood of the people. Before this, he attempted to create confusion among the masses and the revolutionary people all over the world. But after his surrender, everyone is aware of his actual agenda. This is all part of the Operation Kagar and the Sonu Gang is now acting according to the state apparatus. It is the broader part of LIC(low intensity conflict).

Our Party strongly opposes the surrenderist line of the Sonu Gang. We and the revolutionaries of Bangladesh are not confused by traitors like Sonu.

Thus, we know, whatever Sonu said to hiding his true agenda for surrendering is completely neo-revisionist. Sonu is utilizing bogus theories to justify his surrender.

Some years ago, the Prachanda-Baburam clique espoused similar nonsense, claiming that the world situation has changed. However, this revisionist, traitorous line still fails to address the imperialist warlords of America and their allies, who continue to endanger the world with the threat of a third world war. They only urge the oppressed to lay down their arms but cannot ask their newly appointed god, the state apparatus, to do the same!

Our International Department and Central Committee boldly stands with the comrades of the CPI (Maoist) Central Committee. We pay homage to Comrade Basavraj, Comrade Bikalp, Comrade Kosa and all the martyred comrades of the CPI (Maoist). We stand with those comrades who are carrying forward the line of the Protracted People's War and countering the state-sponsored neo-revisionist line within the Party.

India is an expansionist state. It not only oppresses its own people but also oppresses the people of neighboring countries. Therefore, the Indian state is a common enemy of South Asian countries and people. The CPI (Maoist) is the only true communist force fighting against the state within its country. It is also

the responsibility of ours and the international proletariat to stand firmly with our comrades on the battlefield. We call upon all the revolutionary parties around the world to uphold the revolutionary line and oppose the Sonu Gang.
