Solidarity Message from the Communist Party of Greece (marxist-leninist) to the Unified Communist Party of Nepal (Maoist)

Comrades

We wish to convey our warmest revolutionary greetings and express our strongest solidarity to you and the Nepalese people in this crucial juncture for the development in your country.

The imperialists and expansionists never stopped for a single minute to hinder the revolutionary process and intervene in Nepal using their agents and the subordinate forces in their reactionary plots.

However the Nepalese people with their mass and active participation in the demonstrations, protests and every day clashes with the police forces, against the political coup of President Yadav, who acted under the directions of both Indian and US imperialists, are showing to the rest of the world that the future of Nepal is yet to be written by its people's struggle.

People's War was initiated by the CPN (Maoist) in the darkest period for the Communist Movement and in the most adverse context internationally and internally. The resolute factor for the success of People's War was the support and the active participation of the Nepalese People. During the last three years the development was both complex and unprecedented. The current situation is not a surprise. This deadlock seemed unavoidable and probably delayed. The Revolution Process is a very complex situation where class struggle is extremely intensified, changes forms and the line struggle is an everyday issue.

It is the duty of all progressive people, democrats and communists to support the Nepalese people in their struggle to pave the way for their future against imperialists and reactionaries and their puppets.

Long Live International Solidarity!

Comradely

Communist Party of Greece (marxist-leninist)

International Bureau
