

The Communist Party of Greece (marxist-leninist) condemns the murderous, barbaric attack in the Turkish town of Suruç, near Kobani, against Turkish militants who were expressing their solidarity to the Kurds in their efforts to rebuild the city of Kobani. The “suicide attack” caused the death of at least 30 militants while more than 100 others were injured.

This attack is part of the lasting slaughter of the people as a result of the imperialist plans in the region. These imperialist plans have given birth and armed groups like ISIS in order to serve their interests in the region. The Turkish state is in complicity with the imperialists and supports ISIS in its effort to suppress the Kurdish fighters and liquidate their struggle for independence.

That this attack has taken place on Turkish soil and not in a war zone shows that not only the Kurdish fighters are targeted, but also anyone who supports their struggle. It is an effort to terrorize every solidarity movement locally and internationally.

Peoples' solidarity cannot be terrorized. It can only grow and be stronger lighting the path for all peoples. The peoples will fight for their rights so they can be masters of their country.

**DEATH TO FASCISM AND IMPERIALISM!  
SOLIDARITY TO THE PEOPLES' STRUGGLE!  
PEOPLES DO NOT NEED PROTECTORS!**
