

NO TO THE NATO OPERATIONS IN THE AEGEAN

The deployment of a strong NATO naval force with air support in the Aegean “for monitoring the migrant waves”, as is stated in the resolution, constitutes a dangerous and reactionary development for our people as well as the peoples of the region.

- It constitutes a clear meddling of NATO in the increasing imperialist confrontation and intervention in Syria and the Middle East, a very dangerous development at a time when the proposed but dubious cease-fire is accompanied by continuous bombardments and threats for the escalation of the war.

- It intensifies the refugee drama, who driven by the bombardments and the massacres of the imperialists and their puppets in Syria, are met by the NATO warships and become tools in the confrontations and aims of imperialist and regional powers.

- It opens very dangerous paths for our country and its people as we become directly involved in the NATO war plans and, also, because it opens again matters of sovereignty in the Aegean and confrontations between the Turkish and Greek bourgeoisie. The government of SYRIZA-ANEL after their “offer” for a new US-NATO military base, the nomination of the US as a “precious friend”, and the reinforcement of the US-backed Israel-Egypt axis go one step forward in the direction of deepening their dependency.

- It is a step forward in the direction of complete subjugation to the demands of the country's EU “partners” (Germany, France) and the transatlantic “allies” (USA), the hawks of war, the vultures that drive our people into misery.

The Communist Party of Greece (marxist-leninist) condemns this dangerous development and call our people to strengthen their anti-imperialist and antiwar struggle. We must give to our people's struggle for bread anti-imperialist characteristics. We must express our solidarity to migrants and refugees by targeting our common enemies. We must walk towards the creation of an All-peoples Front of Resistance and Demand against the assault of the system and the regime of subjection.

**FOR A PEOPLES' FRONT AGAINST IMPERIALISM AND WAR
US – NATO – EU - IMF OUT OF GREECE
SOLIDARITY TO REFUGEES AND MIGRANTS**
