

Solidarity to the Moroccan Militants!

Recently the reactionary royal regime of Morocco has escalated its repression and violence against the workers' strike movement and the student struggles. We condemn the mass arrests of students in Marrakesh and Meknes and their illegal imprisonment. We demand their immediate release and send our solidarity to the imprisoned hunger strikers.

The Communist Party of Greece (marxist – leninist) supports the international solidarity movement of the struggling Moroccan people and youth against despotism and repression, and calls on the Greek workers and the student movement to express their support to the arrested militant students.
