

AN APPEAL

Dear Friends! This is the list of people killed by state armed forces in Dandakaranya from 10 August 2009, when the Operation Green Hunt was commenced, to 31 December 2010. Amidst immense state terror prevailing in Dandakaranya, it was not so easy to collect the names and other details of all those persons killed by state forces. Here, we have recorded the names of civilian people as well as armed Maoists, killed in both fake and real encounters. There may certainly be some more killed persons whose names were not known to us or gone completely unreported.

We request all of you to publish this list in your newspapers and websites so that the whole world could understand what kind of state violence is going on upon the people of Dandakaranya.
