

FASCISM, STATE AND FAMILY: On why I went UG

Dear all,

Lal Salaam!

I am writing this letter in response to the situation which has occurred ever since I left my familial house. Some of you, especially those of you in the media, might be wondering where I am, or what is meant when a comrade tells you that I left home due to ideological differences with my mother. My name is Vallika (Val) Varshri, and I am the daughter of Archana Verma (1995 IAS Officer, currently Joint Secretary level) and this is our politics of MLM, and the reason I went UG. This letter is also an explanation of why we can only work in an UG manner under the current assault of BHF (Brahmanical HindutvaFascism).

Currently we are at a point in which we are living in time of severe reaction, a time when capitalism/imperialism tightens its hold on the exploited and oppressed people and countries of the world, fascism grows in strength in order to protect the interest of finance capital. The world imperialist system is facing a crisis, and US imperialism is weakening. With its hegemon status at stake, US imperialism is the desperate paper tiger trying to sink its claws into the wealth of oppressed countries. With imperial capital having reached its current capacity for expansion, it's looking for new avenues in the form of markets and investments in order to grow. India is an important avenue for imperialism, US in particular, and therefore, US imperialism is hand-in-hand with the Indian ruling class in ensuring that it's allowed to unhindered entry & access to India. Why does the Indian ruling class allow that? Because India is a Semi-Colonial Semi-feudal society which is dependent on imperial capital to sustain its debt-ridden and dependent economy, as a result of which it is not truly independent, nor has it ever been. The mode of production therefore determines the nature of the Indian ruling class which is composed of Comprador Bureaucratic Capitalist and Feudal Landlords. They are supported by the comprador bureaucratic state which paves the path for imperial capital to enter freely, and without (or least) resistance, into India. Rona Wilson's article on SEC (available on Towards A New Dawn) succinctly explains these concepts, as well as the writings of SK Gosh, the erstwhile General Secretary of CPI(ML)People's War.

Dimitrov helped us to understand the relationship between capitalism-imperialism-fascism when he defines fascism as the openly terroristic, chauvinistic and most violent form of finance capital in order to protect itself. Therefore, when the world imperialist system is in a state of crisis and is therefore desperately looking for new avenues of profits, it is without a doubt that comprador bureaucratic state will work hand-in-hand with imperial capital to protect its interest.

US imperialism's biggest enemy is MLM and that is why ex-PM Manmohan Singh said, "Naxalism is the biggest internal threat to our country." Why the blood thirsty Salwa Judum was legalized through the DRG? Why the heart

and mind strategy of CIA's Operation Anaconda was adopted in Operation Green Hunt? And why the running dog of imperialism on a very tight leash PM Modi, has declared that CPI (Maoist) will annihilate by March 2026. These are but a few examples of the laughable Indian state which in its feudal arrogance considers itself the inevitable victor in the class war between the bourgeoisie and the proletariat.

It is this Indian state that my mother is a part of, and as long as she is a part of the ruling class and I am a communist, I would rather die a thousand times over than be traitor to the people of this country by returning to my family. The family is not an entity which is free from the mode of production comprised of productive forces and relation of production. The feudal family is communal due to the whole family being the smallest unit of production; while the capitalist family is nuclear, allowing more freedom for the individual, as the individual as the smallest unit of production. The family is therefore a sight for the enforcement of the mode of production which is existing in a particular society in accordance to the particular conditions determined by time, history and geography. On the other hand, we understand that the state is the instrument for the dictatorship of the ruling class, whether it be the bourgeoisie or the proletariat. The ruling class in India are the comprador bureaucratic capitalists like Adani, TATA, Jindal, etc. as well as feudal landlords whose existence is sustained through the exploitation and oppression of the proletariat, peasantry, petty-bourgeoisie and national bourgeoisie. Since the family is the part of the super structure which enforces the ruling class ideology, it is an entity which is the part of the state and therefore helps in re-enforcing the ruling class ideology. The dialectical relationship between the state and the family is both direct and indirect. Take marital rape laws in India- it is not recognized in Indian law. In families in semi-colonial semi-feudal India, feudal relationship dominates. Feudal values as enshrined in Brahmanical patriarchy re-enforce the idea that the women are property of the family and therefore have no right to say no to it. She is in particular the property of her husband and the husband is therefore entitled to treat her in any way he desires (chattel is not treated as if it has a consciousness), especially as a means for the husband to fulfill his sexual desires. Therefore, feudal family don't recognize the individual and independent existence of women and their subsequent right to consent. To reinforce the feudal family, the Indian laws do not treat marital rape as rape, as marriage means the perpetual "consent" of women to sex. Family too reinforces ruling class ideologies – JVCs are managed by families in order to perpetuate capital; family teach their children the culture and value that they should embody, determined by ruling class morality. For example, families discourage their children from becoming revolutionaries as it doesn't result in an income for the family, thereby serving the ruling class interests under the justification of "who will take care of us when we are old?" or "You're our investment so you better pay us back". Therefore, the family is a mini-state in itself. My mother is a comprador bureaucrat as well as from a feudal landlord family, making her the perfect embodiment of the ruling class, our class enemy; and she has left no stone unturned in order to prove herself as such.

On 9th June 2025, several comrades from Nazariya, FACAM and bsCEM were picked up by a 'special branch' of the Delhi Police. I strongly suspect that my mother, had a hand in this, in collusion with her batchmate and best friend. Devesh Kumar (IPS 1995) under whom the Delhi Police is currently functioning. My comrades were picked up just one day after I had sent a letter to my parents, informing them that I am going to be working in a secret was from now on and wouldn't be maintaining contact with them (my family) i.e., UG. As a Zamindar my mother has within her a feudal Jury which reared its degenerate head when she realized that I had hurt her *izzat* (honor). After my interrogation with respect to Rezaz's arrest, I came to accept how rotten my mother is i.e. no desires to rectify. During the whole process, she fully cooperated with the illegal interrogation, even supporting the threats of the Maharashtra ATS, "I would rather do not have her (referring to me) than to have her interact/associate with Maoists/Jihadists like Rezaz. Thank God the ATS has come since it has saved my daughter from a Kerala Story." After the interrogation and the subsequent statement of the same which was released on Nazariya's social media, she supported my father who threatened to fire the domestic help in our household sine "she loves the poor more than she loves us". In a debate with my mother about the fascist Operation Kagar, my mother openly admitted her disregard for democratic procedure or constitutional/legal means to instead endorse extra-judicial executions of the adivasis, she said, "I think ----- should not get the right to a trial. All naxals, as well as the villagers who hide, feed and support them should be lined up and straight away shot down." When I decided to go UG, it was partly because of my mother – so one who upholds MLM, who is willing to fight for the rights of the adivasis, women, working class, Muslims, Dalits and other exploited and oppressed people is safe under the current BHF regime. No one who is working for the democratic rights of the people, who "dare to dream and dare to struggle" are safe – not even me whose class origins lie in the ruling class. This is why I know that my mother had a leading role in the illegal kidnapping and torture of my comrades. They are targeted because the BHF (Brahmanical Hindutva Fascist) state in its desperation to aid imperialist capital pass its crisis, is going to target each and every person who is working against the interests of imperialism, feudalism and Comprador bureaucratic capitalist. My own mother is an IAS officer who is more a feudal tyrant than a person who has sworn to serve the country. IAS officers aren't gods like my mother is under the impression – they don't get to run the administration by "ruling of might" (feudal power in which the police works like the feudal goons of a landlord army like Ranvir Sena) instead of a tool of the rule of law to enforce and execute legal functions as mandated by the constitution. If my mother has any honor left, she should resign, for she has violated numerous laws as well as Articles 19, 20 and 21. She has not only justified, but had a hand in the interrogation as my comrades were illegally kidnapped, detained at an old administrative building, for 9/10 days, interrogated, beaten, electrocuted and threatened with UAPA for believing in the struggle for a new society. She should be ashamed, and an inquiry should be conducted against her immediately, though we all know how unlikely that is considering how my mother is a perfect stooge for imperialism, feudalism and Comprador

Bureaucratic Capitalists. This is why I have gone to work in an UG manner – for under the current state of BHF, there is no other correct way to work. Comrades, as well as the allies of the revolution and the revolutionary people, we must not let our fears or our selfish and individualistic desires guide us and remain working in an open manner indefinitely; if we want to serve the people, we must work in UG manner – evading the state and building a new democratic society. The space for open work is shrinking and will not be left if the current state of things continues.

Why is it necessary to work in an UG manner under BHF?

In an earlier section of this letter, we already talked about the international context – the world imperialism is in crisis, and in order to save itself from the same, fascism is on the rise. In India too, the crisis of the imperialist system has led to the strengthening consolidation of BHF. The UPA government under the leadership of congress didn't prove to be enough for the imperialist powers who wanted finance capital to enter India at a greater pace and rate. This is why the US ruling class has been accused of interfering in the 2014 elections to make the elections favorable for the more openly fascist BJP-RSS led NDA alliance who though their policies have allowed even more free flow of finance capital. Moreover, the world bourgeoisie likes Modi for his repressive Political-Military strategy – by dropping democratic presences and employing direct violence in order to curb dissent and kill resistance.

Currently, the BHF state has launched Operation Kagar, or the 'the final solution'. In it, they launched an operation in May, 2015 in Karregutta Hills, which has killed around 30 revolutionaries in 1 month alone. The victims of the operation are not just armed Maoists, but also civilians, children and unarmed revolutionaries. The comprador bureaucratic state is conducting war against its people, it is conducting a genocide against its Adivasi people in order to allow mining corporations to extract India's natural resources and benefit imperial capital. This operation is a continuation and intensification of surajkund policy, which changed the strategy of the state from defeating the Maoists to including within its ambit all those who opposed the state/speak for the exploited and oppressed masses under the justification of being against both "Naxalism of both the pen and the gun". This is nothing but outright autocratic nature of the state through which it curbs all dissent, and no one not even ruling class politicians like Rahul Gandhi, are safe from BHF Indian state if they dare to interfere in the plans of imperial capital.

For communists, Lenin in 'What is to be Done?' taught us that when conditions allow, communists should work as openly as possible, making use of legal and democratic rights and space in order to propagate the politics and program of Marxism. However, the conditions should be favorable for open work – this means that there should be some space for dissent. We cannot say that the conditions right now are favorable for open work. Dissent means to be arrested or to be fake-encountered, and such a condition will not allow us to propagate our politics amongst the masses. In such a situation, importance should be given to the task of preservation of subjective forces

who will work secretly and in the background in order to create conditions favorable to the establishment of NDR to socialism to communism. This is not the first time that political activists have needed to go UG in order to carry forward even more intense class struggle. During the emergency under Indira Gandhi at the flow of the Naxalbari struggle, many activists had to go to UG in order to preserve the revolutionary movement. The current situation also calls for the same. In order to defeat the Indian state, revolutionaries as well as all democratically minded people have no option but to go UG and carry forth the political work.

The current conditions allow shrinking scope for open work. We have our history, as well as many recent incidents, as an example of the same MBM (Molwasi Bachao manch) was banned due to being an anti-development and anti-national organization, because it is as joint forum for adivasis which talks about an alternate model of development. Any cases have been filed against activists who speak for the rights of the Palestinian people. Adv. Ajay Singh was arrested under UAPA for raising concerns about imperialism, displacement of adivasis and for his strong political stance. Comrade Saibaba, Pandu Narote and Stan Swamy were murdered by the Indian state. Activists from BSM were illegally detained for holding a discussion. Anyone who shows dissent is threatened with UAPA and harassed by Indian agencies/local police, the parents of student activists often called. Tear gas was sprayed through drones on our farmers; Dalits and Muslims are tortured, humiliated and persecuted on a daily basis and of fear of their unity. No democratic space will be left as BHF continues to consolidate itself, all dissenters will either be jailed or killed if they continue to resist, or do not fall into the ruling class camp. Under the current conditions, one has to be UG to be able to carry forth the revolutionary work.

To be UG means to work like a professional revolutionary, a person who has no aim or concern except for the revolution, to establish the dictatorship of the proletariat by defeating our class enemies. We can't defeat the state without being UG as it's only through evading capture and working quietly but efficiently in true Bolshevik spirit that we will topple our enemies. It's only then we will expand our work and the influence of MLM, by bringing the masses together by becoming fish in the sea of the masses. By hiding amongst the masses while organizing them, that is what it means to be UG and what it takes to defeat the 3 mountains of imperialism, feudalism and Comprador Bureaucratic Capitalist.

Comrades be rigid in our ideological-political-organizational line. Be ready to sacrifice everything, for it is not as individuals that we can win, but as true revolutionaries, as communists that we will achieve victory. Be ready to go UG if necessary, or even stay open and give arrest if required. Give your whole life to the revolution be resolute in your conviction – Death and Revolution!

Long Live New Democratic Revolution!
Long Live Marxism-Leninism-Maoism!
Smash Brahmanical Hindutva Fascism!

Inquilab Zindabad!

Revolutionary Greetings

Vallika Varshri (Val)

Former editor and founding member of Nazariya Magazine

UG Political Activist
