

Statement from the All Burma Federation of Student Unions (ABFSU) On the 89th Anniversary

– May 08, 2025

To: Revolutionary Comrades and the People

Red salutations to the people, for ABFSU is an organization that is birthed by the masses.

Next, red salute to all the ABFSU comrades across generations who have made the ultimate sacrifice in this path of uprooting the fascist military dictatorship.

The backbone of the revolution is the people. In every period of history, it is always with the power of the oppressed masses that we are able to rise up to fight and wage struggle against the exploiting and oppressive class. Over the past 89 years of the anti-imperialist, anti-fascist, and anti-military dictatorship struggles, we, the ABFSU, have stood firmly and fought alongside the oppressed masses.

Any organization divorced from the masses is bound to collapse. Without the masses, even the fascist military propped up by a parasitic ruling class will not last. That is why we, as a united people, must endure every rise and fall of this revolution with unwavering resolve and strike hard at the heart of the fascist military.

At the same time, we must build a united front that is rooted in the masses, a collective force forged for the purpose to strike deep at the very foundations of the military dictatorship. Only by building the united front rooted in the masses can we overcome every rise and fall of the revolution and climb toward the complete destruction of the fascist military dictatorship at its root.

As the All Burma Federation of Student Unions, we pledge our unwavering commitment to stand united with the oppressed masses until liberation is won.

The people's enemies shall tremble in fear.

Glory to the masses.

All Burma Federation of Student Unions
Central Organization Committee
