

Dissolve the CA and Organize all-party Political Assembly! Working class and oppressed communities: unitedly struggle for Federal People's Republican Constitution!!

Respected masses of the people,

A fascist repression has been enforced upon the working class people and oppressed communities, struggling for their right and liberation, by those anti-people and anti-national leaders of the various political parties, which are in CA and the Government. The state has made ill-attempts to solve the political problem in a military way by mobilizing army and imposing curfew. Dozens of people have been killed and hundreds have been detained. In this situation, CA-2 has been proved to be a fiasco and the establishment of all-party political assembly has been justified as a reliable alternative for now.

The political party leaders, who represent the comprador and bureaucratic bourgeoisie and feudal class, have completely disregarded the working class people including workers and peasants and have enforced deceitful politics upon oppressed communities. By so doing, they are making ridiculous efforts to devise a so-called amended draft of the reactionary constitution and fix provincial border in a monopolistic way. It is evident that right of the working class people and the oppressed communities cannot be established from the regressive constitution written in this manner.

We had initiated and carried on the great people's war to liberate workers and peasants, to cope with privileges for women, Dalit, Muslim and handicapped persons, to constitute federalism with identity for indigenous nationalities, Tharu, Madheshi and communities of oppressed nationalities and regions, to guarantee national independence and sovereignty and to constitute a state power of the working class people and oppressed communities. However, people's sentiment and mandate and as well the worth of martyrdom expressed in the great people's war and different movements carried out by workers, peasants, women, Dalit, indigenous nationalities, Madheshi, Muslims and the masses of the oppressed region have been seriously hurt. The problem of national independence, democracy and people's livelihood has reached to a very precarious and horrible condition. In the name of writing constitution, the national independence has been severely threatened. People are desperately restless amid fury and pain. We express our solidarity and provide support to the just movement carried out in different parts of the country including Tharuwan, Madhesh, Limbuwan and Magarat. Our party has been struggling for working class and oppressed communities and will continue to do so until the people are liberated. Swimming in the pool of blood of the struggling people and pushing aside the entire struggling forces, a handful of leaders of some political parties, who have captured the regime and the CA, are parroting to write so-called constitution. The so-called constitution that is going to be written by pushing aside and ignoring the entire struggling forces including the CPN-Maoist, the initiator of great people's war, does not have any sense and justification.

Today, the brokers of imperialism and expansionism have been conspiring to disrupt the social goodwill and make the people of oppressed classes and communities fight each other on the question of constitution. It is necessary to remain aware of these activities and show the movement a correct orientation. The real emancipation of the masses of the people is possible only from New Democratic Revolution that is accomplished against feudalism, imperialism/expansionism led by the proletariat. We must not overlook this reality.

Liberation willing masses,

On the one hand, "constitution" is not being written devoid of trouble, and on the other even if it is written it is sure that it cannot materialise people's right in it. Therefore, it has now been urgently necessary, not to go towards writing a retrograde constitution, but towards initiating dialogue without delay by organising a national political assembly that consists of all political parties and the entire struggling forces after dissolving the CA. We hereby make a special call to the government, the entire political parties, struggling forces and the broad masses of the people to take an initiative in time.

Slogans:

- Dissolve the CA and organise all-party political assembly!
- Create a storm of struggle to constitute People's Federal Republic!

- Abrogate the draft of the regressive constitution!
- Name and fix border based on identity, establish autonomous regions!
- Constitute secularism!
- Struggle for full proportional representation in all the organs of the state!
- Return the army back to barracks, stop state terror!
- Down with feudalism, imperialism, expansionism and right revisionism!
- Long live immortal martyrs!
- Struggle to defend national independence and sovereignty!
- Long live New Democratic Revolution!
- Long live Marxism-Leninism-Maoism!
- Long live the CPN-Maoist!
