Indian design to Bhutanize and Sikkimize Nepal: C.P. Gajurel

C. P. Gajurel—a senior Unified Maoists' Party leader talking to journalists in Gaighat of Udaypur district said that the design of the Indian rulers is first to Bhutanize and finally Sikkimize Nepal.

The press meet was organized by Revolutionary Journalists' Organization, January 23, 2010.

"Yes, indeed during the rebellion period we dug trenches to fight against the Indian Expansionists", he said adding, "The revolt was necessary to protect Nepal from continued Indian threat."

Gajurel was also of the opinion that unless a full-fledged movement for the preservation of National Independence was carried out, it is likely that India's naked interference in Nepal's internal matter will increase in the days ahead.

In the likelihood that the CA fails to draft the constitution on time, our party is ready to declare peoples' constitution on our own, he also said.

Gajurel is taken as a hardliner in the Maoist camp.
