

To Become Newroz Against The Unjust Wars!

On the Newroz of the Year 2026 we face with the rising of the attacks of the imperialist and regional reactionary forces against the oppressed nations, ethnics and believes in our geography.

The military aggressions from US imperialism and Israeli Zionism against the reactionary Iranian Molla-Regime, means new massacres, oppression, destruction and forcefully displacement for the Peoples of the region in the Geography of the Middle East. While the reactionary Iranian Regime is answering the aggressions, the bill of this unjust war is paid foremost by the People of the Middle East, as well as by the international Proletariat and the Peoples of the World through more exploitation, hunger, poverty and death.

They want to normalize the fact, that ten thousands of people get massacred, millions of people are forced to leave their places and to live in hunger and poverty, to permit a handful of rich ones to continue to intensify the exploitation of the people, to live a luxury and comfortable life and to add benefit to their profit.

The imperialist capitalist system wants to fix their crisis through new unjust wars, occupations and plunder.

The competition between imperialist monopolies on the market and the intensifying contradictions signs the preparation for a new imperialist war of partition.

In the actual context in which fast preparation for the 3rd imperialist war of partition is done, the imperialist capitalist system means for the humanity nothing else than a rising of death, destruction, hunger and poverty. The lords of the world, the today's Dehak Despots are imposing "new Gazzas" to the humanity, the working class, the oppressed laborer people and the today's blacksmith Kawas. To be able to reach its goal, the imperialist capitalist system tries to disarm and liquidate all kind of resisting forces that are in opposition to them. This is the reason for a lot of politics, like the deathly aggressions on the Peoples War led by the communist parties in India and the Philippines, the liquidation of the Palestinian national movement and the pulling of a force like the Kurdish national movement into acceptable borders. It is right in place to say, that the lords of the world want "a garden without thorns".

Under these circumstances, in which the imperialists and the regional reactionary forces are imposing the unjust wars on the oppressed nations, the working class and the People, it is necessary to organize ourselves and join the ranks of the People's Army and through this to take place in and raise the flag of the just wars against a new imperialist war of partition. The fire of resistance that blacksmith Kawa lightened against the Despot Dehak, is today's struggles, uprising and serhildans of the oppressed nations, different ethnics and beliefs against US imperialism, Israeli Zionism and Turkish republic fascism.

Workers, that are killed at work and that are condemned to work more and more everyday but by the end of the month earn a miserable salary;

Women, which are killed over and over, whose invisible labor is exploited and that face sexist, national and religious oppression;

To the LGBTI+, who face hate crimes, whose existence is ignored and who are shown as a threat to family and society;

To the youth, whose future is stolen, whose right of education and home are taken from them, who are exploited under the name of MESEM and apprenticeship and are killed at work;

To the Alevites, whose even existence as a belief is not accepted and who face assimilation;

To the Kurdish nation foremost, as well as to all our People of different ethnics, whose existence as nation is not accepted, that face oppression, assimilation and massacres;

Join the ranks of the People's Army that is holding the flag of our just war!

Raise the flag of the just war against the unjust wars!

Spark the fire of resistance from the blacksmith Kawa against the Dehak Despots!
