

# COMMUNIST PARTY OF INDIA (MAOIST)

## CENTRAL COMMITTEE

*Message of the Central Committee:*

**Let us defeat the third phase of the Operation Green Hunt and defeat the plans like Bastar Mission-2016 and Saranda Action Plan which are an integral part of the operation!**

**Let us celebrate the 12<sup>th</sup> anniversary of the Party throughout the country with revolutionary zeal and fervor!**

**Let us advance by consolidating the Party, the PLGA, Revolutionary Mass Organizations and the Revolutionary People's committees!**

Dear Comrades and the People,

We are going to celebrate the 12<sup>th</sup> anniversary of the formation of our party with great zeal and fervor. 21<sup>st</sup> September holds great importance for our party and the revolutionary people. 12 years back, on 21<sup>st</sup> September two revolutionary streams merged and the CPI(Maoist) emerged. Our central committee extends heartfelt revolutionary greetings to all the ranks of the party, the commanders and soldiers of the Peoples Liberation Guerilla Army, the leadership and members of the people's new democratic government organs, the revolutionary mass organizations, party sympathizers and the revolutionary masses. Our CC also extends its heartfelt revolutionary greetings to the Maoist parties and other organizations of various countries which have been building movements to build worldwide solidarity to the people's war going on in our country.

More than a hundred and fifty of our dear comrades and people have laid down their precious lives in the revolutionary movement during the past one year since the 11<sup>th</sup> anniversary of our party. Among them, there are comrades belonging to state level leadership as well as the ordinary party members; Platoon commanders as well as people's militia members; Leaders of revolutionary people's governments and mass organisations to the ordinary masses. Com. Chirag (East-Bihar and North-East Jharkhand Special Area), Vasanth (Odisha) and Lachchanna (SZC alternate member, DK) belong to state/special zonal level leadership and com. Ravi (Secretary, East Divisional Committee, AOB), com. Satish (South Zone, BJ), Rama (Seendri Lingo, Kalinganagar Division, Odisha), Sunil (Maad Division, DK), Rajitha (North Gadchiroli Division, DK) and Soni (South Bastar, DK) belong to Zonal/Divisional committee leadership. Let us remember the thousands of brave martyrs who laid down their lives since the days of Naxalbari armed peasant revolutionary movement and let us pay our humble homage to each and every comrade who was martyred during the past one year while fighting shoulder to shoulder alongside us against the enemy in this people's war to achieve the lofty goals of the revolution.

Our CC also pays its homage to the brave comrades who have laid down their lives in the movements going on in various countries under the leadership of Maoist parties, organisations and groups with the aim of making the world socialist revolution a success. It also pays homage to the

true democrats like BD Sharma, who remained a steadfast friend of our party and the new democratic revolution going on in the country and wished for its success.

In the past ten months since the 11<sup>th</sup> anniversary of our party formation, party cadres, PLGA soldiers, revolutionary people's committees and revolutionary and democratic organisations, the masses of our country and especially those in the movement areas, under the leadership of our party, have been valiantly fighting against the anti-people and pro-imperialist social, economic, political, military, cultural and environmental policies and especially against the Operation Green Hunt that the fascist ruling classes have been implementing most cruelly with the aid of the imperialists. The sacrifices of those martyred in this resistance war are most valuable, ideal and to be emulated. They have laid down their lives for a new, justified and equitable society where there is no inequality, discrimination and exploitation of a human by another human. On the occasion of the 12<sup>th</sup> formation day of our party, let us pledge with clenched fists that we shall march forward steadfastly and with determination in the path illuminated by them and fulfill their dream of achieving a new world. We extend our deep condolences to all the family members, relatives and friends of these martyrs and promise that the CC shall stand in firm support of them.

The CC hopes that our co-fighters who were injured in the battle will recover soon and become active participants again in the revolutionary movement. Let us put before the party ranks, PLGA forces and the broad masses the victories achieved by our party due to the sacrifices made by the martyrs and strive to increase their active and militant participation in the people's war.

Our victories:

PLGA has been fighting the mercenary police and paramilitary forces of the exploitative ruling classes under the leadership of the party to complete the central task of developing the PLGA into PLA and Guerilla Warfare into Mobile Warfare so as to develop DK and BJ into liberated areas. It is also fighting to protect the party, movement, people and people's revolutionary government organs and to achieve more victories. On the other hand, the enemy forces have been unleashing state violence and white terror in various forms with its Low Intensity Conflict (LIC) policies. They are attacking the villages and the people in a big way and killing people, assaulting women sexually, and destroying the property and the crops of the people. They are trying to create rifts among the people. They are suppressing the people with iron boots to smother the aspirations of the people for new democracy, for socialist society and to scuttle their collective spirit. Independent journalists who have been trying to bring out the facts about the state terrorism and the police atrocities are branded as Maoists and implicated in false cases and/or forced out of conflict areas. The PLGA, under the guidance of the party and with the help of the revolutionary masses, has taken up various Tactical Counter Offensive Campaigns to confront this counter revolutionary war that the enemy forces are conducting as a part of the Operation Green Hunt. At Kala Pahad (Palamu, Jharkhand), Dabbakunta (Sukma, Chattisgarh), Malewada (Dantewada, Chattisgarh) and ChakkarBandha (Aurangabad, Bihar) considerable damage was done to the enemy forces. PLGA soldiers are continuing their resistance in Chattisgarh, Odisha, Maharashtra, Telangana, AOB, Jharkhand, West Bengal and Western Ghats by conducting various small and middle level tactical offensive actions. More than 60 police personnel were killed and nearly 140 police were injured in various guerilla zones and red resistance areas throughout the country.

The party plena at various levels have reviewed and drawn conclusions that two year task of Bolshevization (Study and Application) have been yielding some positive results in the expected ways. In some areas they have taken decisions to conduct the campaign for one more year. The leadership at the higher level has resolved to enhance their theoretical and political level and to bolshevize themselves as per the rapidly changing circumstances. We have decided to conduct social survey as part of this. We have taken up field level studies about the relative changes that have taken place in the past one decade in production relations. The leadership of various levels has discussed the class analysis reports collectively. They have come to a conclusion that the living standards of the people in the revolutionary movement areas has improved.

From 2011 onwards, a co-operation movement is going on for 'land leveling-plot making and increasing production by providing irrigation' under the leadership of Revolutionary People's Committees (KrantikariJanatanaSarkar) that our party is building at various levels. This campaign is going on every year for 15-20 days. This is being done on class basis wherever the JanatanaSarkars are working and has turned this practice into a revolutionary tradition. This is winning the hearts of the people. Police and the paramilitary forces have resorted to severe attacks in the months of January and February of 2016 to disrupt this campaign. Police fired upon the people at the place of work and killed two villagers and injured two. In spite of this, revolutionary masses completed this campaign by the People's Power Day (February 10) and achieved their targets. In the midst of severe attacks also, on an average, about 1,50,000 women and men participated in this campaign daily. This denotes its mass character. This campaign is taken up in the movement areas of AOB and Odisha also.

JanatanaSarkars have concentrated on agriculture, people's education and health services, the defense of JanatanaSarkars and small industries. JanatanaSarkars have to also look after the tasks of getting the arrested comrades released, rendering economic help to their families, protecting the forests and growing them further etc. In the light of severe drought conditions in our struggle areas revolutionary mass organizations and RPCs have taken up drought relief measures to provide relief to the people. We have also collected donations from various sections of people like employees, democrats, sympathizers of the revolutionary movement in various forms and distributed.

In the revolutionary movement areas, and especially in Eastern and Central India, central and state governments have signed MOUs with MNCs and CBBs like Tatas, Essar, Mittal, Jindal, Neco, Vedanta, Posco for various projects like mining projects, huge dams, reserved forests and parks, mega steel plants, thermal power plants, open cast mines, railroads etc. Powerful people's resistance movements are going on against these MOUs and against the thousands of police forces deployed for enforcing the MOUs. With the result, many MOUs were stopped from being implemented. In the border areas of Tamil Nadu, Karnataka and Kerala anti-displacement movements are taking birth. The displacement problem in the country is an issue of the very existence question of the people, especially of the moolvasis. Ultimately it is the land question. That is the reason why the people in the whole country agitated against the anti-people land acquisition policy brought forward by the Modi government. The Odisha government and its mercenary forces are cruelly killing the people to suppress the anti-displacement movements. Our party is leading these people's movements uniting with pro-people forces and organizations on a broad basis.

Democratic organisations, religious minorities and dalit and adivasi people in our movement areas are coming forward to unitedly fight against the Brahminical Hindu Fascism. The people in these areas are not taking lying down the practice of hegemonic and murderous politics by the saffron terrorists (Sangh Parivar), who, with the help and aid of the state, are acting above any law and the constitution. On the other hand, students, workers, women, revolutionary and progressive writers, artists and singers and progressive journalists are striving to arouse people's consciousness against the Brahminical Hindu Fascism. Our party has stood in solidarity with them. We have been putting in our efforts to build them into united movements.

The ruling classes have announced about a decade back that the Maoists are the biggest threat to the internal security of the country. They have declared a war on the people in the areas of the Maoist movement. They have deployed nearly five lakh police and paramilitary forces. Drones and half a dozen helicopters of the air force are guarding from the skies. By the end of 2015, the Indian government permitted to conduct aerial attacks. This has to be seen as a turning point in the Indian revolutionary movement. Garuda Commandos of the air force are conducting rehearsals for aerial attacks, thus terrorizing the people. The fake encounter killings of the struggling people by the police have increased. The police are virtually immune to any atrocities on women also. Mercenary police are resorting to cruel torture of the people. They are rubbing chilli powder and salt on people. They are tying rope to the hands and then dragging the people on road by tying them to vehicles. Women's breasts are squeezed by the police. In ChinnaGelluru, PeddaGelluru, Budigin, Pegadapalli, Kunna and other villages, they resorted to inhuman assaults on women. Under the leadership of SRP Kalluri, the IG, Bastar, Chattisgarh, the central and state police and commando forces are resorting to barbaric atrocities on people. Even though the Amnesty International has faulted the police for not informing about the arrest of the people to their kith and kin, the central and state governments are not caring. Democratic people are raising their voice against these fascist atrocities, both nationally and internationally. Intellectuals, democratic forces, civil rights and human rights activists, adivasi well-wishers, journalists, lawyers, women's organizations and various parliamentary parties that are working locally other than the BJP are coming forward to conduct fact finding about these atrocities and condemn them. Raman Singh and Modi and their police are unable to bear this. Police goondas have resorted to physical attacks on SoniSori, the leader of the AamAadmiParty. D.M. Avasthi, the DG, Naxals is dismissing all this as mere false propaganda to defame the police and branding all the forces that stand on the side of the people as Maoists. Sukma district sessions judge Prabhakar Gwal was dismissed from service by the government as he was not delivering judgments in the Maoist cases as per the diktats of the district collector of the Sukma district. He came out with the allegation that there is a threat to his life.

State violence and the white terror are going on in an unprecedented level in all the movement areas in the states of Chhattisgarh, Maharashtra, Bihar, Jharkhand, West Bengal, Assam, Odisha, Andhra Pradesh, Telangana, Tamilnadu, Karnataka, Kerala, Madhya Pradesh and Uttar Pradesh.

The third phase of Operation Green Hunt is creating an objective basis for the unification of pro-people forces. Basing on this, the party has been striving for the past one year to build people's movements and people's resistance movements against operation green hunt by uniting workers, peasants, students, women, revolutionary intellectuals, democratic, patriotic and pro-people forces and the well-wishers of the adivasis.

Dear Comrades and Friends!

Indian ruling classes and especially the Brahminical Hindu communal forces that are in power in the garb of parliamentary democracy or in other words, the state terrorism and the 'saffron terrorism' are carrying out a very cruel attack on the revolutionary movement with the help of the imperialists.

The enemy no.1 of the people of the world, America, is facing severe problems within and without. This country is mired in a debt of 20 trillion dollars, as the most indebted country. In order to continue its hegemony as the world police, the US is expending hundred billion dollars a year to maintain hundreds of military bases, in strategic areas in 70 countries. This is triggering anger in the people of those countries. It is sparing no efforts to counter China which is emerging as a competitor worldwide. It has taken up many military actions to continue the tensions in the South China Sea. The competition is growing between the US, China, Russia and the other imperialist countries, to plunder the oil riches in 20 Arab countries of North Africa and West Asia. In the name of defending the people, deposing the dictators and decimating the terrorist groups, the US, France and the NATO armies are destroying these countries in blazes of war. As per the estimates of the UNO, more than three hundred thousand people have been killed so far in the war of Syria. Because of this war, hundreds of thousands of people are forced to flee to Europe as immigrants. They are encountering untold miseries. Scores of people are losing their lives while attempting to cross the Mediterranean Sea. Hundreds of civilians are losing their lives in the drone attacks carried out by the US and other imperialist countries in Pakistan, Afghanistan, Palestine, Yemen, Iraq, Libya, Somalia, Syria and Philippines. With such policies, the US is increasingly incurring the wrath of the people of the world.

The US is also suffering from many internal problems. It is forced to cut down on the welfare expenditure. All sections of the people are resorting to strikes on their issues. About 40 million people (nearly 12%) are living on food coupons. The government is forced to take new loans to pay the salaries of the employees. The African-Americans who are living there for centuries are facing a lot of discrimination. In 2015 alone, nearly 600 black people have been killed. The black people are raging with vengeance. They are also resorting to armed attacks on the police officers there. Thousands of people in scores of cities took out rallies to condemn this. Thus the unrest is increasing among the American people.

The situation of the other imperialist and industrial countries is no better than that of the US. Greece is unable to overcome the debt crisis which it is mired in. In France, workers' strikes on the one hand and the attacks of ISIS on the other are continuing and the policies of the government are losing the confidence of the people. People are suffering from unemployment, cut in the pension funds and welfare funds etc. It is true that the exit of Britain from the EU is an expression of the people's aspirations, but it is also a reflection of the growth of the rightist forces. The mobilization and struggle of the people on their issues is growing in Europe also.

With the result, the crisis of the world imperialist system is bound to increase and lead a severe conflict among the imperialist forces and exacerbate the competition to divide the world market among them.

**Comrades,**

The economic and financial crisis that is continuing in the imperialist countries since 2008 is creating a turmoil in all the countries of the world and creating a huge social crisis. This is giving rise to many movements of workers, oppressed people and oppressed nationalities. Imperialists are instigating a cocktail of fascism, religion and jingoism to suppress these movements, people and the people's politics. The communal forces which are in power at the center are, on one hand, instigating cultural jingoism and resorting to fascist attacks and on the other, implementing vision-2020 to fulfill the interests of the corporate forces and thus destroying the economic system of the country.

When the NDA-I, under the leadership of BJP, was in power earlier, it had come out with Shining India. Now it has unleashed a propaganda blitzkrieg with the slogan 'Make in India'. Modi and co. has brought forward various schemes like smart cities, start-up India, stand-up India, MUDRA yojana, digital India, skill India, RURBAN etc. as part of vision-2020. To implement these pet projects, to restructure the whole Indian economy to serve the interests of the imperialists and big comprador bourgeoisie and landlords, Modi has established NITI (National Institute for Transformation of India) in the place of planning commission. With the funds provided by these plans, they have devised plans to get rid of the Maoists. They are using these funds to suppress the revolutionary movement going on under our leadership. Modi has toured more than 40 countries and has signed hundreds of MOUs with corporate big shots to pillage the wealth of our countries. Indian economy is being tied up strongly with the American economy, ever since Modi has come to power.

Hindutva forces are acting as per their whim, ever since the BJP has assumed power at the center. They are forcing the people of other religions to accept that 'Hindu traditions and customs are national heritage'. Saffronising education is going on in the BJP ruled states for quite a long time. In Modi ruled Gujarat schools, they are teaching the 5<sup>th</sup> class students the theory of Savarkar that, the 'Vedic Hindutva is at the roots of Indian civilization'. The tenth students are being taught that the Varnashrama Dharma is the biggest boon given by the Aryans. Vidya Bharati, belonging to the Sangh Parivar is striving hard to propagate the Hindutva ideology. Hindutva forces are immersed in the saffronisation of the education by using the state power, various organizations and forums. The young impressionable minds are taught history with wrong interpretations and commentaries and the future generation is being filled with Brahminical ideology. This danger is increasing by the day in the adivasi areas.

Saffron forces are resorting to deadly attacks on Dalits, Adivasis and religious minorities to force them into accepting Brahminism. Murderous attacks are on the rise under the protection of the state. They are trying to reconvert the people who have changed their religion by 'GharVapsi'. Many organizations are working towards this end under the patronage of the Sangh Parivar. New ones are mushrooming. They are also resorting to a façade of social harmony. Since Modi at the centre and Devendra Fadnis in Maharashtra have come to power, BR Ambedkar is being hailed a lot and they are trying to project themselves as the messiahs of Dalits. Dalits are up in arms against attacks on them by the upper castes in Gujarat and are building statewide agitation for social justice and self-respect. People from all the sections from all over the country are condemning these attacks and protesting. In Gujarat many Dalit writers have returned their awards.

Hinduisation of Adivasis in the country is going on for a long time. Steps are afoot to evacuate them from forests. Like it is putting everything on sale, the Modi government is also trying to put forests on sale. The schedules of the constitution to protect the rights of the adivasis and the various laws

made by various governments like the Prevention of Atrocities on SCs and STs Act, PESA, new forest policy, Chota Nagpur tenancy Act etc. are thrown into the dustbin and are making new laws like Domicile Act in Jharkhand where non-tribals who are settled there for the past 30 years are being given rights on par with tribals with respect to land, thus paving way for displacing adivasis and plundering the forest wealth. Hindutva forces have intensified their cultural attack to co-opt the adivasis into them. Chowdaries, Bhils and Gamiths, who were adivasis before the Modi regime, have been hinduized and Ram has been added as a surname for adivasi names. In the Aashram schools being established in the adivasi area, one is compelled to take meals only after saying Hindu prayers. They are establishing Vanavasi institutions with the aim of inclusion of adivasis in to the fold of their Parivar. A section of the adivasis was used extensively in the pogrom of 2002 in Gujarat and in the attack carried out on the adivasi Christians in Kandhamal in 2008. Adivasis are recruited into Sendra, Salva Judum and commando forces and are put in the forefront while carrying out attacks on the revolutionary movement. NDA government has taken a decision to form special battalions with adivasis. Adivasi masses throughout the country are opposing this act of the government. Adivasi intellectuals, well-wishers, democrats and true secularists are siding with the adivasis and are standing in solidarity with them.

Hindutva forces are carrying out attacks on the Muslims in the country since the division of the country. Hindu communal forces are the main reason for the many communal disturbances that erupted at many places in the country in the past two years.

After Modi came to power, erstwhile Hindu communalist convicts are coming out of jails with their chests thumping. People have clearly understood that the 'State' is clearly defending and protecting the Hindu communal forces when the murderers and criminals right from Sadhvi Pragna Thakur to the murderers like those involved in the Gulbarg society massacre walked free.

Many state governments have banned beef. On this pretext, the Hindu communal forces are resorting to severe attacks on the Muslims with false allegations. Many Muslim youth are accused of being terrorists, separatists and ISI agents and are being sent behind bars by fabricating false cases. People are in fact realizing that 'saffron terrorism' is increasingly becoming an internal security threat to the country.

State terrorism is resorting to cruel attacks in the revolutionary movement areas in the East and Central India to wipe out any traces of democracy. The aim of this police state under the leadership of this BJP government under Fascist leadership is to eliminate political opponents by accusing them of being Maoists and Maoist sympathisers. We can establish real democracy when the revolutionary movement emerges as a political alternative by destroying state violence.

Dear comrades and Friends,

When one talks of international terrorists, people raise their accusing finger towards war mongers Bush, Blair and Obama. Likewise it is becoming increasingly clear to the people that the real terrorists in our country are Modi, Amit Shah, Mohan Bhagawat and their ilk of the saffron brigade. These forces are unable to bear any progressive and rational thoughts. BJP governments are taking up big campaigns and special missions by the security forces to eliminate the revolutionary forces. The youth in Kashmir is being killed brutally for raising their voice for 'Azad Kashmir'. The number of the dead has increased to more than 60. Curfew was imposed on the whole of Kashmir valley

consecutively for forty days in an unprecedented way. Students, intellectuals, artists and writers are coming out in protest in various forms against the intolerance of the Hindu communal forces.

Common people are encountering unprecedented hardships because of the neo-liberal economic policies that the governments have been adopting for the past two decades. People are suffering from the high prices of commodities. Unemployment is growing. Lakhs of workers are losing jobs as the Modi government is privatizing many public sector industries including the defense sector. The hard won rights of the workers are being trampled from the time of Indira Gandhi to Modi, even while reciting the mantra of 'ShramayeveJayathe'. The increase of financial burden on essential services like health and food, abrogation and/or cutting down on the welfare measures is having a severe impact on the workers and peasants.

Heaping praise on the peasantry, Modi is promising that he will double their income by 2022. Marathwada peasantry has responded that their income at present is zero and it would double to two zeroes by 2022. Agricultural scientists have come up with the statistics that the annual income of the peasants at present is Rs.20000 and even if it doubles to Rs.40000, it would be still less than two month salary of a fourth grade employee. Lawyers, doctors, students, government employees, workers, anganwadi workers, farmers, women, workers and people of all other sections are fighting against the neo-liberal economic policies.

The central government has celebrated its two years in office with pomp. On this occasion, central home minister Mr. Rajnath Singh has given a call in Bilaspur for the Maoists to shun the weapons and come for talks. He also warned that the government would not remain a mute spectator. Another minister Venkayya Naidu announced that there wouldn't be any talks with those who don't have faith in the constitution. This is the attitude of the government towards the talks. Our party never hesitated to go for talks when it served the interests of the revolution. Our party has already announced that we would definitely consider going for talks if the armed forces stop repression, ban on our party is lifted and the comrades in jails are released and we are invited for talks. Recently, when FARC in Columbia relinquished its fifty year old armed struggle and signed an agreement with the government, some forces in our country have urged us also to emulate them. Revisionists, Indian government and some liberal intellectuals argued in 2006 that the Indian Maoists also should emulate the Nepal Maoists when they left the path of armed struggle and plunged into the quagmire of parliamentary politics. It was projected as an ideal path to be followed. But what has the history proven to us? What gains have the Nepalese people made? We also have the negative experience of the organizations in the North-East which are immersed in futile talks with the Indian government for many, many years. Recently, IromSharmila also ended her 16 years long hunger strike after losing faith in the peaceful, non-violent method. Of course she forgot the interests of her Manipuri people. In fact, the people of our country have lost faith in any bourgeoisie or revisionist party and are taking the path of struggle for the resolution of their issues. The crisis is intensifying in the world imperialist-capitalist system and the semi-feudal and semi-colonial system in our country. The objective conditions are becoming favorable for revolution. We are confident that we will be achieving more victories in the future. Let us fight with determination.

Dear Comrades,

The basic policy of the Indian ruling classes, serving the interests of the imperialists and the comprador big bourgeoisie and big landlords, in the repression unleashed on the revolutionary

movement and the people, the encirclement and mopping up operation, and the white terror is that it is not limited to some normal repressive measures. Carrying out political and ideological attacks is the most important element that constitutes this policy. They cannot achieve their aim by only resorting to the repressive campaign without at the same time carrying out ideological and psychological war.

The aim of all the repressive measures and the ideological pressure that the imperialists and their lackeys, the Indian ruling classes bring upon the revolutionaries and the people is very clear and that is to hold on to their power and repress the people's struggle that challenges their hegemony, to put an end to the people's struggles and to make the people accept their semi-colonial, semi-feudal system or to make them bow down to their system. This is the essence of the LIC policy. They implement various policies towards this end. Without going into whether they will be able to implement their policies effectively or if those will yield the desired results, we can say for sure that these policies cannot have a decisive say in the outcome. In contrast, the ideological and political strength, and the policies of the very revolutionaries that they want to wipe out will play a decisive role. It is quite obvious through their practice and outlook. Therefore, the policies of the revolutionaries and not those of the enemy are the decisive factor.

Class enemies are not really very strong, because this is class war. Yes, this is a class war between the oppressors and the oppressed; between the exploiters and the exploited; the haves and have-nots; the hungry people and hoarders: between the imperialists, landlords and the comprador big bourgeoisie and the oppressed people like workers and peasants. This is a war between justice and injustice. This war has started because of the private property, exploitation and as the society is divided into classes. This will come to an end only with the abolition of the private property, exploitation and the classes. Class struggle is an objective reality irrespective of the wishes of the classes. Classes cannot put an end to these wars. Only those who understand this fact can fight for the classless communist society which will put an end to all the wars. Only they can mold their ideology, politics and practice in accordance with that. This is what class consciousness is. Exploiting ruling classes, oppressors of the people and their mercenary forces will shout from roof tops that they will wipe out the mountains, the forests and make the statenaxal-free etc. etc. and that the maoists would never succeed. In contrast to this, defeat or victory is dependent on the aims and the decisiveness of the people fighting in the forests, plains, villages and the towns. The ideology of Marxism-Leninism-Maoism is stating that this is the age of revolutions. Even the ruling classes are saying that the 21<sup>st</sup> century is the century of revolts and are gearing up to take preventive steps to suppress revolutions. That is because they have left only hunger, poverty and injustice to the people. Their exploitative economic system is at its root. Ruling classes know pretty well that the people will revolt against this. In the present modern society, their 'democratic' governments can only divert the people from the issues, but cannot solve the problems faced by them. Their goal is to maintain the status-quo of the exploitative system and to suppress the anger of the people and the revolutionary violence that they adopt. So, they constantly try to study the weaknesses of the movement and to strike blows to the movement based on those weaknesses. Ruling classes also know their weaknesses and they also try to overcome them. But, they will never succeed in their endeavor. This is because their interests lie in exploitation only. We know our strengths and weaknesses and also whom we are fighting against. We can definitely overcome our weaknesses. That is the reason we announce that they can never defeat us and the broad masses, that they cannot defeat the people's war and that we shall definitely achieve victory. Only the

people's war has the ability and capacity to face and counter the multi-pronged attack in ideological, political, military, social and cultural fields that the imperialists and their lackeys, the comprador bureaucratic big bourgeoisie and the big landlords, are unleashing on the oppressed people belonging to workers, peasants and the middle classes. The class enemies may impose a very harsh war, but the people's war will not rest until they are wiped out, beaten back and the oppressed people achieve success.

Quoting Lenin, Mao gave a call to 'Dare to fight! And Dare to Win'. He elaborated these calls thus – it is not enough to dare to fight but you have to dare to win also. To win, we have to have decisiveness and bravery. A special desire is needed for this. Until the revolution is successful, we have to thoroughly analyze the things that are initially beyond comprehension and advance until the new democratic society emerges from the ashes of this exploitative system and further advances to socialist and communist societies. Decisiveness and daring should be such that it should be able to visualize the whole path that makes the revolution victorious and to wipe out the semi-colonial and semi-feudal system in countries like India and the imperialist system, that is not only destroying the lives of billions of people but has become a serious threat to the very survival of the mankind.

Let us take up the following tasks in the coming year to overcome the difficult situation we are facing to better utilize the excellent revolutionary situation that is becoming favourable for revolution within the country and worldwide.

#### **Tasks:**

- Let us defeat the third phase of the Operation green hunt and the Bastar Mission-2016 and Saranda Action Plan which are a part of it! Let us advance to achieve more victories in the people's war in order to fulfill the central task.

We should analyze the experiences of the people's war we have been waging for the past one year against the third phase of the Operation green hunt and the Bastar Mission-2016 and Saranda Action Plan which are a part of it. We have to take positive and negative lessons from it after analyzing and synthesizing it. We have to formulate appropriate plans, tasks and suitable tactics to achieve more victories. We have to also devise suitable methods of mass line to unify the will and capabilities of our people's war.

- Let us consolidate the party committees at all levels by the Bolshevization campaign.
- Let us celebrate the 50<sup>th</sup> anniversaries of the Great Proletarian Cultural Revolution and the Naxalbari revolt, centenary of the world shaking socialist revolution of Russia and the bi-centenary of the Marxist international proletarian teacher Karl Marx with a lot of revolutionary zeal and fervor!
- Let us concentrate on the revolutionary land reforms that are at the core of the new democratic revolution.

Revolutionary land reforms will be the core essence of the new democratic revolution. They will liberate the peasant masses, who are the majority among the population, economically, politically and culturally. This is the way to win the firm support of the peasant masses and make success the new democratic revolution through protracted people's war. The drama of land reforms of the reactionary ruling classes is no longer working and hence they are trying to act as though they are providing the landless agricultural labourers, who cannot afford to

buy any land, some relief through their liberal economic policies. In this background, our revolutionary land reforms will create favourable conditions for revolution.

- Let us mobilize the people in a big way like in Lalgarh and Narayanapatna movements against imperialist neo-liberal policies, displacement and other political, economic and social issues! Let the revolutionary and democratic organizations, forces and individuals build a strong people's movement on a broad basis by mobilizing vast masses!
- Let us build a strong and militant movement by unifying revolutionary forces, democratic and progressive forces, organizations, minorities and secular forces against the Brahminical Hindu fascism.
- Let us build a broad people's movement by unifying people in united fronts on the issues of adivasis, Dalits, women and religious minorities!
- Save democracy! Fight against the enemy forces in the uniform and the counter revolutionary reactionary gangs that are trampling the human rights!  
Our party upholds, defends and encourages democracy, human rights. It respects all kinds of basic rights and freedoms like freedom of expression, right to assemble, right to organize etc.
- Let us stand in solidarity with the struggles of Kashmiris, Nagas, Manipuris, Asoms, Bodos and other nationalities who are fighting for the right to self-determination including the right to secede!
- Let us stand in support of the anti-imperialist movement going on worldwide! Let us mobilize in solidarity with them in India!

With Revolutionary Greetings,

**Central Committee,  
CPI (Maoist)**
