

COMMUNIST PARTY OF INDIA (MAOIST)

Central Committee

Press Release

15 January, 2023

Condemn the Aerial Bombings on tribal villages by the Fascist Hindutva Indian State.

Defeat Operation "Samadhan"-Prahar.

With the onset of New year, the Fascist Indian state under the regime of BJP repeated its aerial bombing on its own people in order to crush the people's movements as early as possible. On Wednesday, 11th January, 2023 in the name of Anti- Maoist operations conducted by the orgy of fascist forces (CRPF, Cobra Battalion, District Reserve Guard and Greyhounds) dropped several bombs indiscriminately on places inhabited by one of the weakest sections of the Indian society. In this joint operation several bombs were dropped with the help of combat helicopters and Drones in Madkanguda, Mettaguda, Bottethong, Sakiler, Madpaaduled, Kannemerka, Pottemangum, Bottalanka, Raspalli and Erpad of Pamed and Kistaram blocks of South Bastar at Chhatisgarh-Telangana Border from 11 AM onwards. However, this is not the first time aerial bombings are being conducted in this region. From the past two years the Indian state has undertaken the approach of aerial bombings in order to eliminate the Maoist party. The recent onslaught occurred just before few days when Union Home Minister Amit Shah stated in a rally in Korba in Chhatisgarh that, before 2024 General election there will be no sign of Maoist party. It is clearly visible that how desperate is the fascist BJP to eliminate the Maoist forces. Their desperation is crystal clear that they want to sell all the natural resources to Imperialist and comprador bourgeoisie thieves, and to turn our country into their absolute subjugation.

Another valid reason behind the 11 January attack is that the ruling classes and its marauders are unable to enter those regions through land. As because the people of those regions are highly political and radical which gives shivering to the CRPF and other forces to enter through land. In order to terrorize those people and inflict harm on their determination towards the Indian Revolution, the enemy had to undertake the approach of aerial bombings and aerial attacks. However, the PLGA forces with their strong will to serve the people and the nation retaliated those aerial attacks with utmost bravery and in that effects enemy's one helicopter got damaged and their six forces were injured. In its statement CRPF stated that it was the Maoist forces who launched attack on them when the CRPF forces were being shifted for forward base camps. This is nothing but to veil their brutality on people and fear that they undergo day and night. It has to be brought to people notice that shifting of forces to forward base camp is not a recent phenomenon, but it is going through several years. In the coming days the enemy is going to expedite its aerial attacks and bombings on Maoist leadership. With the help of National Technical Research Organization which was set up with the aid of US intelligence operative NSA, CRPF in collaboration with Indian Air Force is conducting drone surveillance and bombings. But enemy need to listen this that your bombs and Drones cannot match the sacrificing spirit of every single Maoist guerrilla, it cannot crush the Indian Revolution and it is totally impotent in front of Marxism- Leninism and Maoism. In history the oppressive forces failed to bomb the rebellious nature of people in Vietnam, Cuba, Korea, Afghanistan and in present they are failing in India and Phillipines.

In the past one years, the Indian state has opened 20 new CRPF camps in the Telangana and Chhatisgarh borders, turning it into highly militarized zone in India. People's resistance towards these new camps are

growing and it is gaining strength with the each passing of days. These camps are providing security to mining barons who are looting our natural resources and turning our country into a commodity. In the past few months the Central Government has granted permission for fresh four mines in Bailadila. To facilitate the loot of the natural resources, BJP government has brought amendment in PESA act and in Forest Conservation Act. The growing socio-economic crisis because of the policies of the Hindutva forces is giving birth to people's movements which the government is unwilling to tolerate at any cost.

Through People's War the masses are able to withstand the most savage and the most barbaric moments in history. We Maoist have pledged to liberate this suffering land from the vicious clutches of the ruling classes and we remain faithful in the deed of liberation until death. Central Committee of Communist party of India (Maoist) appeals to all democratic and progressive forces and oppressed nationalities and marginalized communities to continue and increase their protests against the Hindutva forces. Comrades and friends let us fight against this unjust regime and uproot it from its base and establish true people's democratic state.
