

**Communist Party Of India
(Maoist)
North Coordination Committee (NCC)**

Press Release

.....
Date: 22 Nov, 2025.

Appeal to Al-Jazeera, DW, Guardian, Mehdi Hasan, The wire, scroll, Bastar Talkies, Newslaundry, Indian Express, The Hindu, EPW, Ravish Kumar, Caravan, Redmike, Mandeep Punia (Gaon Savera), Punya parsoon Vajpayi, Kashmir Times, Rising Kashmir, Rozana Spoksperson, Haribhumi Haryana, Voice of East Punjab, Chaddi Kala Times etc.....

Our party CPI(Maoist) is facing a severe set back and so is the indian masses. The indian masses are facing severe setback in their daily class struggle they die due to hunger or ruling class made catastrophe like landslides and floods; they do not have proper medical facilities to survive a simple viral attack; they have to face daily humiliations due to caste, race, religion and sex; they are denied daily minimum wages and livelihood by the big landlords and big bourgeoisie of the country; the oppressed nationalities of the country like Manipur, Kashmir, Punjab etc.. are constantly longing for freedom or autonomy against the despotic expansionist nature of the indian state. And all these conditions exist because our beloved motherland i.e. India as a country too is in crisis for she is the chief target of Imperialism and the Indian state which is in-fact a comprador to the imperialist forces is anti-national to its core.

The US imperialist have been trying to revive itself after the corona crisis, the heavy economic plunder of the country by monopoly imperialist finance capital investment in mining, infrastructures development and software industries are examples of the imperialist loot. These investment are parasitics giants which besides lotting the forest, water and land of the people do not allow local manufacturing and business to flourish. The AI magic at the political economic level and the re-emergence of psychological offensive at the military level (an example of which is the peace treaty concluded by US between HAMAS and Isreal) have helped in sharpening the parasitic nature of the imperialist finance capital. The all out war in the base regions of our party be it in DK or in Jharkhand is the part of the US imperialists forces revival policy. As the part of the psychological offensive the Surajkund policy has been designed by the American CIA and the local comprador indian state forces to produce traitors within our party and movement. But the US imperialism time and again tends to forget that nationality movement which is led by the ruling class forces is different from the communist movement led by proletarian forces. The proletarian force is based on the principle of scientific socialism and therefore are advance in their political commitment and are destined to be victorious.

Our party is waging a relentless struggle against Imperialism and particularly US imperialism and its comprador autocratic indian state representing the big landlords and big comprador bureaucratic bourgeoisie. In this struggle the party had seen several ups and downs, perhaps our history ever since our formation have been a spiral like history of rising from the ashes, climbing the horizon as the red sun of the morning and growing brighter despite the to and forth movement of the clouds. We have endured the pain of losing several of our great comrades in the battlefields. Our party or for that matter no communist party of the any country can die at the hand of the ruling classes, howsoever despotic it might be.

The only reason for the demise of the communist party is the weakening of the proletariat line in the two line struggle waged within the party. Our party which was born out of the debate with the modern revisionist forces will grow strong ideologically and politically by waging struggle against the renegade right opportunist-liquidators-revisionist forces like Balraj

alias Bacha Prasad Singh- Darshan Pal- Arjun Prasad Singh- Ashin alias Gagan alias Anil- Venugopal alias Sonu- Rupesh and natinal chavnist revisionist Harman. These traitors of various hue and colours have educated the party rank and file because whenever these traitors came out with a position contrary to the interest of the masses the party attacked them ideologically, politically and philosophically and ensured that Marxism-Leninism-Maoism is preserved and developed. The articles that came out of these debates are historic contribution of our party in the world proletarian revolution. In this continuation our committee that is NCC (North Co-ordination Committee) decided that it is urgent to debunk and expose the neo-Parchand modern revisionist line of Venugopal. The present article before you is in this regard. We hope that the debates with the liquidators will find place in your media outlets.

Besides we also appeal to the media to rise and expose the genocide of revolutionaries throughout the country. We all must remember that their next target is urban naxal i.e. all those progressive and liberal voices who have opposed RSS-BJP brahmanical fascist agendas. The question before us is not just about standing with the maoists, it is about standing for opposition and alternative to Hindutva manuwadi politics. Our party is the only firm ideological, political and military opposition to the present brahmanical Hindutva fascist government. We had been saying that despite the democratic pretensions, the indian state is autocratic to its core; this stands proved now when even the ruling class parties are saying that election is meaningless. The whole country including a section of the ruling class has realised that the present autocratic indian state can not run a free and fair election. We appeal to all the progressive democratic media to see it for themselves if or not we are an oppositional force? To see for themselves if or not we have mass support? When our comrades get martyred in DK a huge sea of people weeped with us. We ask the media persons that why is that Bastar Adivasis do not count for them? How is it possible that media do not know who have really developed DK?

Our party developed and preserved their language, culture and gave the people the consciousness of the most advanced ideology that is of Marxism-Leninism-Maoism. Intellectuals like David Harvey are busy explaining Marx`s capital in their own Eurocentric perspective, while our party cadres coming from Adivasis background understand and educates

the Adivasis masses in Marx's understanding of capital rejecting the Eurocentrism of Harvey. Economically to we have uplifted the life of people, in our Jantana Sarkar regions no individual died of hunger. Time and again various intellectuals in the field of sociology/politics have recognised our achievements. We appeal the media outlets to see for themselves what sort of development model Adivasis want? The media should know that Adivasis have rejected the imperialist model of development (the development model which caused thousands of death due to flood and landslides in Himalayan regions) and are with their hero martyred comrade Hidma's Jantana Sarkars model of development (alternative peoples democratic state based on the people's necessities and not based on capital's greed for expansion).

But the US imperialist sponsored Indian state's murderous policy with regard to our movement have crossed all the level of genocide. We ask the media that is not a fact that silence with regard to a genocide is akin to supporting it? World celebrated the Paris Commune of 1871 but what obstructs them from celebrating the achievement of the Jantana Sarkars in DK which in-fact is larger in area and population as compared to Paris of that time? Is euro-centrism a reason for this? Why could not the Adivasis dominated Maoist movement harbour mass media support at the international level? Is Brahmanism and racism a reason for this? The Adivasis of DK under our party leadership stood for the Palestinian liberation and for the right of protest for the European university students? Is it not the time for them to extend solidarity to us?
