In its statement, Partizan noted that raids were carried out on the homes and institutions of numerous revolutionaries and democrats early this morning, stating, “As the NATO summit approaches, raids were carried out this morning in Ankara on the homes of hundreds of revolutionaries and democrats—including our comrades—as well as on numerous institutions.”

The full text of the statement titled “Fight Against the State of Emergency Created Under the Pretext of NATO!” is as follows:

*This morning in Ankara, as the NATO summit approaches, raids were carried out on the homes of hundreds of revolutionaries and democrats—including our comrades—as well as on numerous institutions.*

*As in the raids targeting many revolutionary and progressive institutions, dozens of our comrades were arrested under torture after the doors of their homes and dormitories were broken down.*

*It is clear that this attack was directed against the struggle against NATO. Our struggle against NATO, imperialism, and its local collaborators is just and legitimate!*

*The ruling class, which declared martial law in Ankara, has long since begun its attacks against the people. NATO, which brings nothing but suffering, plunder, and death to the people, has begun implementing its anti-people dictates just days before the summit. The Turkish state’s rulers, police, and gendarmerie—acting on NATO’s military orders—have once again proven the state’s collaboration with imperialism.*

*From the very beginning of our struggle, we have stood against this ideology of annihilation, and we will continue to do so. We will not yield to exploitation, torture, or imperialist wars. The martial law measures and political operations carried out under the pretext of the NATO summit will not stop us! These operations prove the legitimacy of our struggle to the entire world!*

*Release our comrades and our allies in the struggle immediately!*

*Let us fulfill our revolutionary duty and take to the streets against NATO!*

*To Ankara on July 7–8!*

*Down with fascism, down with imperialism, long live our struggle!*

*Partizan*
