

## **TKP-ML TIKKO Rojava Command: "We Will Not Allow Occupation Attacks!"**

The resistance of the QSD and revolutionary forces continues against the intense air strikes of the fascist Turkish state against Rojava for days. The attacks and infiltrations of the Turkish state and gangs, which declared every field from Kobane to Derik as an occupation area, were repulsed many times. TIKKO Rojava Command stated in a statement that on the morning of 30 November, this attempt of the gangs attempting to infiltrate on the Til Temir front line was thwarted by Nubar Ozanyan and TIKKO fighters. According to the statement, 3 gang members were also wounded in the counter-attack.

The statement continues as follows; *"The gangs, whose attack attempts failed, attacked the villages on the western side of Til Temir with heavy weapons. There were no casualties in the attacks. We attribute the action to the 12 TIKKO guerrillas who were martyred in Dersim Aliboğazı on 24-28 November 2016. We fight resolutely against all kinds of attacks of Turkish fascism and gangs, we continue to hold fascism to account. We declare once again that we will not give way to the invasion attacks of the Turkish Republic."*
