

## **TKP-ML TIKKO General Command: We Will Carry The Fight That Our Immortals Sacrificed Their Lives For To Victory!**

In 2024, it is no longer a prediction that the class struggle will develop with all its dynamics, it has become an objective reality. This year is also of particular importance as it is the centenary of the immortality of Comrade Lenin, the great leader of the international proletariat and the oppressed peoples of the world. In the twentieth century, the working class and the oppressed peoples of the world gained important positions on the path opened by our great teacher Comrade Lenin. They achieved glorious victories with the Soviet and Chinese revolutions. In the twenty-first century, the working class and the oppressed peoples of the world need Comrade Lenin's teachings and guidance even more.

It is the responsibility of our party, TKP-ML, as the leading and vanguard force of the working class, to bring the workers and laborers of our country together with the teachings of Comrade Lenin. Just as the twentieth century witnessed the glorious uprisings of the proletariat and the oppressed peoples of the world under the leadership of the Marxist-Leninist-Maoist masters, the twenty-first century will be a century in which the capitalist-imperialist system will be buried in the depths of history under the guidance of MLM.

The month of January is also important for our party in terms of being a month in which we commemorate our immortals. The guarantee of our claim to revolution and socialism, our insistence on the line of armed struggle is our commitment to our immortals.

Our party and, related to it, our people's army TIKKO has immortalized hundreds of commanders, political commissars and fighters in the fight to create the future of humanity.

Especially against the wind of liquidationism that is trying to be developed towards the armed struggle line, the ownership of the revolutionary line that our immortals put forward with their bodies stands in a historical place in terms of winning the struggle to create the future. The path we will follow against the revisionist and reformist movements and understandings presented to the working class and laborers by comprador capitalism and their masters, the imperialists, is the armed revolutionary path, as our immortals have shown.

In this sense, the yeast of our claim for revolution and socialism is our immortals who came from Vartnik, our first commander Ali Haydar Yıldız, our first female immortal Meral Yakar and our Leader Comrade İbrahim Kaypakkaya and carried our struggle to today.

Once again, as the commanders and fighters of our people's army, we promise in the presence of our immortals; We will carry the fight for which they sacrificed their bodies to victory!

***Glory to our immortals who are the architects of our struggle for the Democratic People's Revolution, Socialism and Communism!***

***Glory to our leader Comrade İbrahim Kaypakkaya!***

***Long Live Our Party TKP-ML, and under its leadership TIKKO, KKB, TMLGB!***

***Long Live the People's War!***

***Long Live Marxism-Leninism-Maoism!***
